

# Village of Hines Creek Council Request for Decision (RFD)

Meeting:	Regular Council Meeting
Meeting Date:	October 09, 2018
Originated By:	Karen Young, Executive Assistant
Title:	New Business-Municipal Lighting Project
File:	0116

## BACKGROUND/PROPOSAL:

The municipal complex has light ballasts that are failing or need to be replaced in all areas of the complex. Troy Stucklsweiger of Stucky Electric recommended replacing all lights and fixtures by converting them to LED and suggested the rebate program provided by the Business Energy Savings Program.

The Business Energy Savings Program is a pre-approval program. An application complete with estimates and specification sheets on lights that will be used must be submitted before starting the project to determine exactly what rebates the Village would receive on the lighting project.

Stucky Electric provided the attached estimate for light and fixture replacement for the entire municipal complex which includes:

- Municipal Office
- Library
- Council Chambers
- Board Room
- Bathrooms
- Hallways
- Fire Department
- Exterior wall packs for entire building

At this time Troy Stucklschweiger estimates that the Village may get rebates of up to \$3,000.00.

Estimate No. 144	\$28,910.18
<u>Less estimated rebates</u>	<u>-\$3,000.00</u>
	\$25,910.18

Does Council wish to proceed with application to the Business Energy Savings Program for the 2019 budget year or defer the lighting project and replace failing and/or spent ballasts at this time?

## RECOMMENDED ACTION
