

# Village of Hines Creek Council Request for Decision (RFD)

Meeting:	Regular Council Meeting
Meeting Date:	May 28, 2019
Originated By:	Leanne Walmsley, Chief Administrative Officer
Title:	Delegation– Hines Creek Community Gardens – 9:30 a.m.
File:	0101

## BACKGROUND/PROPOSAL:

See attached a written proposal to create a community garden within the Village of Hines Creek.

Preferable locations would be close to the Homesteader Lodge/Hines Creek Composite as they are hoping to get Seniors/School aged children involved in the project.

The main goal of this endeavor would be to provide fresh produce to seniors/school and those less fortunate.

Gaining of knowledge and passing on experiences to the future gardening community would also be a positive experience, building a community of self-worth.

I have attached a Village of Hines Creek map and list of village owned properties for consideration.

## DISCUSSION/OPTIONS/BENEFITS/DISADVANTAGES

We currently have no properties that would be suitable for a community garden vacant, serviced and close to the proposed locations.

## COSTS/SOURCE OF FUNDING (if applicable)

## RECOMMENDED ACTION:

That Council resolve to receive the Hines Creek Community Gardens Proposal as information.

Initials show support- Reviewed by:	Manager:	C.A.O.

## Hines Creek Community Gardens

We are bringing forth a proposal to create a community garden(s) within the village

Preferable location(s) would be close to the Homesteaders Lodge/Hines Creek Composite as we are hoping to get seniors/school aged children involved.

The main goal of this endeavour would be to provide fresh produce to seniors/school/less fortunate.

Gaining knowledge/passing on experiences to the future gardening community would be a positive as well as building a community self worth

The aim of this project is community involvement, access to local produce and a need for volunteerism

Any land available would be greatly appreciated as we have a small group willing to work on this project

We will be bringing this project to the attention of local businesses, local government (county) and media

This project we feel will only need property as it should maintain itself through our volunteer workforce.

Thank you in advance of this consideration

1. Introduction

The purpose of this report is to provide a comprehensive overview of the current state of the market for renewable energy sources. This includes an analysis of the various technologies available, the challenges facing the industry, and the potential for growth in the coming years.

The report is structured as follows: Section 1 provides an overview of the market, while Section 2 details the various technologies available. Section 3 discusses the challenges facing the industry, and Section 4 outlines the potential for growth.

The findings of this report indicate that the market for renewable energy is growing rapidly, driven by a combination of factors including government support, technological advances, and increasing awareness of the benefits of clean energy.

It is expected that this growth will continue over the next several years, as governments around the world continue to invest in renewable energy infrastructure and as consumers increasingly demand clean energy solutions.

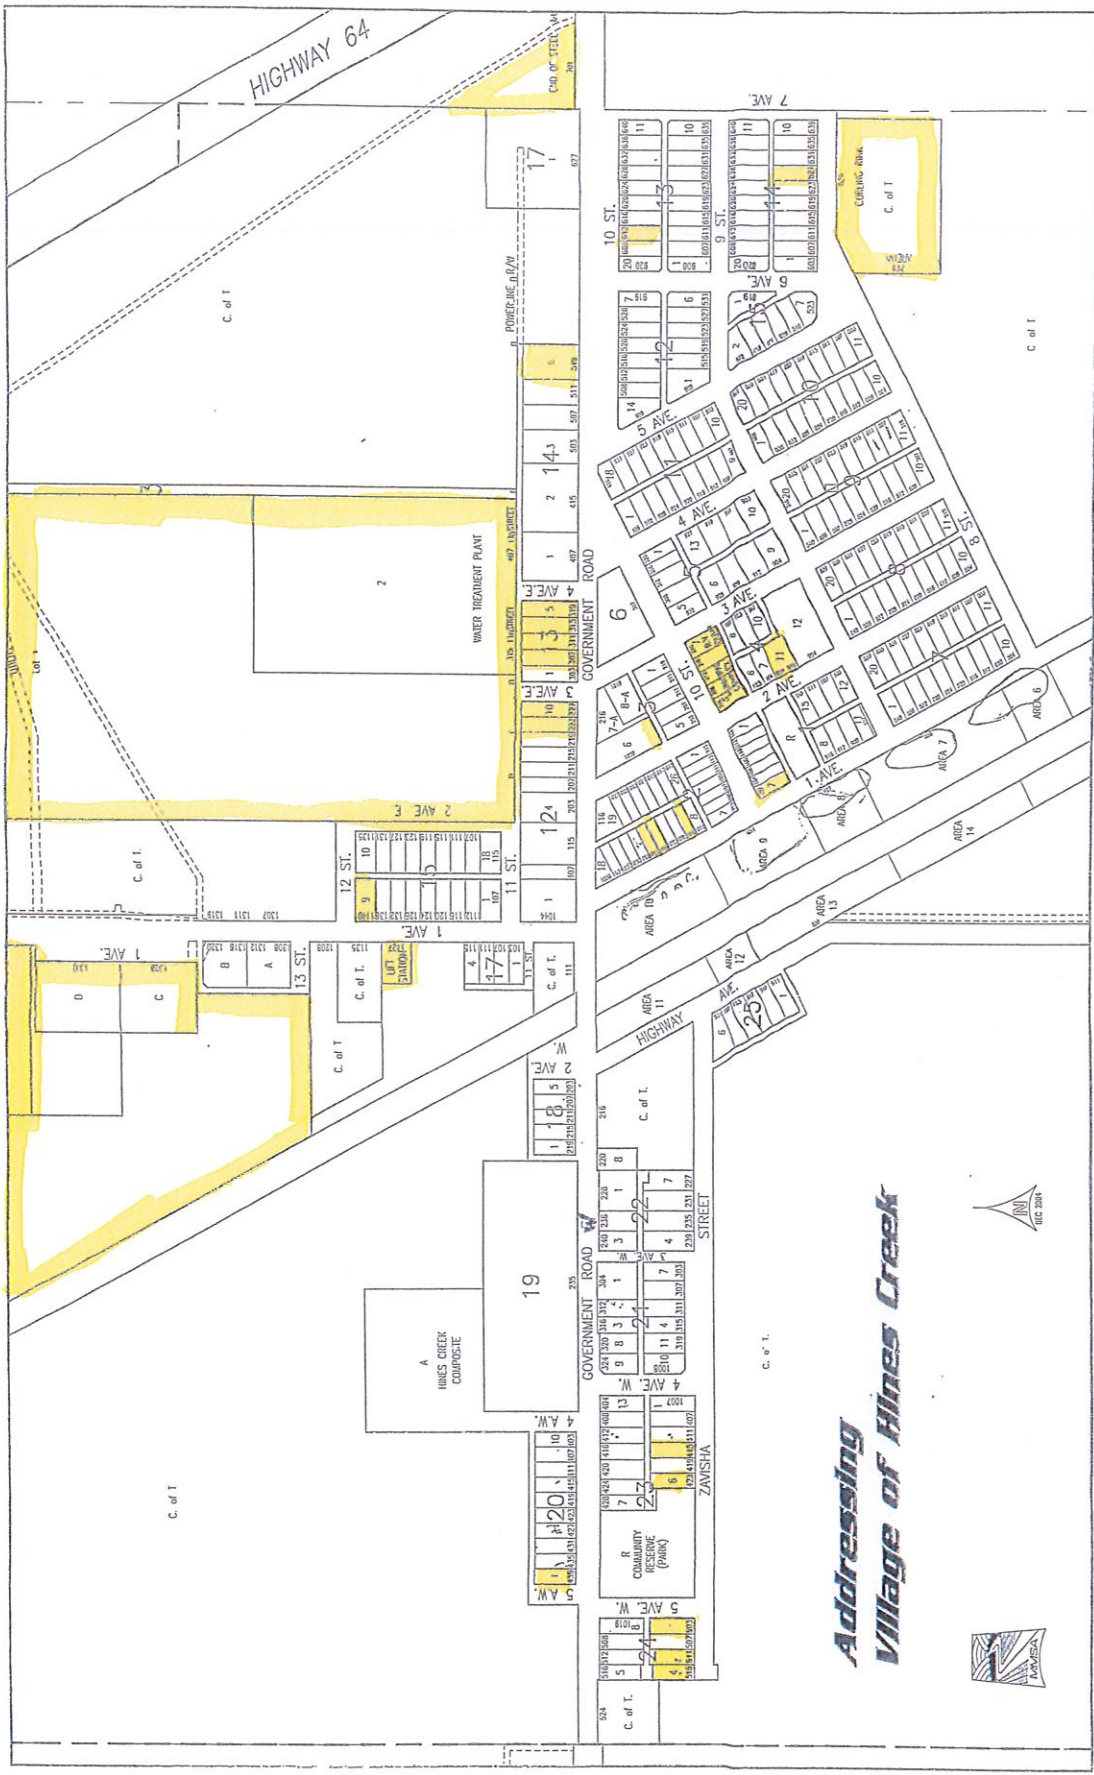

The report concludes that the market for renewable energy is poised for significant growth in the coming years, and that stakeholders in the industry should continue to invest in research and development to further advance the technology.

This report was prepared for the purpose of providing a comprehensive overview of the current state of the market for renewable energy sources.

The information contained herein is confidential and should not be distributed outside of the organization.
