Attention: Leanne Walmsley

## **RE: MUNICIPAL LIGHTING PROJECT**

Dear Leanne;

Thank you, for inviting us to quote on upgrading your lighting to LED in some of the Village properties. Our scope of work is as follows:

- **Municipal Complex - \$14,305.00**  
Retrofit lights with T8 ballasts and LED lamps. Install 18 – industrial 8' tandem fixtures in Fire Hall & 20 in the Public Works Shop.
- **Hines Creek Drop In Center - \$2,150.00**  
Retrofit lights with T8 ballasts and LED lamps.
- **Water Treatment Plant - \$5,560.00**  
Retrofit lights with T8 ballasts and LED lamps. Install LED lamps in fixtures that are existing T8. Install 12 – industrial tandem fixtures in Old Plant Room.
- **Dave Shaw Recreation Complex - \$20,615.00**  
Retrofit lights with T8 ballasts and LED lamps. Install 5 – wall cube fixtures. Install 18 – 6" LED pot light fixtures in Hall. Replace outside lighting with LED.

We have not included any replacement fixture lenses, if required, in our pricing. We have also not included any ceiling tiles, if required for the hall recessed lighting.

If recycling of the existing fluorescent tubes is required, there will be an additional charge of \$0.28 per foot of lamp. The Village may want to dispose of the existing fluorescent lamps themselves, and avoid this charge.

GST has not been included in the above prices.

Sincerely,

Wade Klem
